

Coheed and Cambria

It's not what you have learned
 But what they said about you under your shirt
 You know they never will They'll make sense of what you gave them
 And now it's all downhill from here
 Well in case you break my fall, we're bringin' it home
 A Patrick, short flip, and outside of boundary lines(I'm running you down)
 Ooh yeah, well nothing looks right from up here
 (Inside out)
 I'm still unclear about the things you might have said In pieces they stagger indebted
 Rush me to the emergency room
 Flat line equals frantic endeavor
 But I guess this will have to do now
 A Patrick, short flip, and outside we're bringin' it home(I'm running you down)
 Ooh yeah, well nothing seems right from up here
 (Inside out)
 I'm still unclear about the things you might have said(Down)
 Ooh yeah, well nothing seems right from up here
 (Inside out)
 I'm still unclear about the things you might have said
 About the things you might have said Hold on to the things you favor most
 Shift right and let it run down
 If my peace could find a way
 Let go the youthful honestly
 Let go the youthful honestly
 Let go the youthful honestly(I'm running you down)
 Ooh yeah, well nothing looks right from up here
 (Inside out)
 I'm still unclear about the things you might have said(Down)
 Ooh yeah, well nothing looks right from up here
 (Inside out)
 I'm still unclear about the things you might have said(I'm running you down)
 Ooh yeah, well nothing looks right from up here
 I'm still unclear
