

Big Noise

Phil Collins

Just set your sight high
Look 'em right in the eye and take it
And make a big, big, big noise
Don't ask why
Just take it wise and making it
Make that a big, big, big, big noise
You can feel it in the air
Feel it everywhere
There's a spirit moving
At just look, it's all around you
Just take a look around you people, stars [Unverified] to lose it
'Cause if you wanted you gotta go get it
Just to listen up
If there's something that you need
You better believe
Just set your sight high
Look 'em right in the eye and take it
And make a big, big, big noise
Don't ask why
Just take it wise and making it
Make that a big, big, big, big noise
Better make your play
Don't let her think like right or wrong, get it

'Cause there's nothing to it if you just
If you reach out and do it, it'll be okay
Just catch yourself a piece of the action
Just to listen up
If there's something that you need
You better believe
Just set your sight high
Look 'em right in the eye and take it
And make a big, big, big noise
Don't ask why
Just take it wise and making it
Make that a big, big, big, big noise
'Cause if you wanted you gotta go get it
Just to listen up
If there's something that you need

You better believe
Just set your sight high
Look 'em right in the eye and take it
And make a big, big, big noise
Don't ask why
Just take it wise and making it
Make that a big, big, big, big noise
