

City of Sin

[Linus Young](#)

In the city of sin
You wanna play, you wanna go hard
In the city of sin
You wanna stay, you wanna find out what it's about today
In the city of sin
There'll be a lot of games, there'll be fast cars
In the city of sin
You are just what you are, you are just what I want
When the lights went out
I was standing in the street
When the lights go down
Won't you want to be with me?
And when you meet me again
There'll be no games, I'm gonna go hard
'Cause in the city of sin
I'm gonna stay, I'm gonna stay here
When the lights went out
I was standing in the street
When the lights go down
Won't you want to be with me?
When the lights go out
I'll be standing in New Orleans
When the lights go down
Won't you want to be with me?
When the lights go out
I'll be standing in New Orleans
