Tell Me When

Jennifer Paige

I talk to you out loud
Driving south from Kings road
I've got you in my coat here
Written downI find new ways to want you
But I can't reach you
Head downtownIt's forever later
You're so far away
As night becomes day
I remember the way you held me
Baby, won't youTell me when, so I keep believing
Tell me again, I'm on your mind all the time
Tell me when, don't wanna lose this feeling
Tell me again, when you'll be mineMine, mine
When you'll be mine
You're gonna be mine
Tell me whenFlying standby
On the red eye when you saw me
You left and I heard voices in my head
A happy accident that had to happen
A car crash in my bedIt's forever later
You're so far away
As night becomes day
I remember the way you held me
Baby, won't youTell me when, so I keep believing
Tell me again, I'm on your mind all the time
Tell me when, don't wanna lose this feeling
Tell me again, when you'll be mineMine
When you'll be mine
You're gonna be mine
Tell me whenIt's forever, later
You're so far away
I remember the way you held me, babyTell me when, so I keep believing
Tell me again, I'm on your mind all the time
Tell me when, don't wanna lose this feeling
Tell me again, when you'll be mineTell me when, so I keep believing
Tell me again, I'm on your mind all the time
Tell me when, don't wanna lose this feeling
Tell me again, when you'll be mineTell me when, so I keep believing
Tell me again, I'm on your mind all the time

Tell me when, don't wanna lose this feeling
Tell me again
