

U Kno

ABRA

make me feel like a woman
(baby i don't wanna hide)
i don't wanna be that sweet tonight
(put it down like you do)
come out of the rain
i want it the same
(just like you do just like you do)
(cause you know just how to do it)
and i don't wanna be alone
so babe please come calm the storm
(cause you know just how to do it)
and i don't wanna be alone
and i can't take it anymore
yeah yeah
(don't get it twisted babe)
i don't ever do my thing this way
(lets not sink our ship)
secretly drown out ill cover your mouth
(put it down like you do)
come into the rain
i want it the same
(just like you do)
(cause you know just how to do it)
and i don't wanna be alone
so babe please come calm the storm
(cause you know just how to do it)
and i don't wanna be alone
and i can't take it anymore
yeah yeah
take me far away from here
take me to your sin city
take me far away from here
take me to your sin city
take me far away from here
take me to your sin city
