Round & Round

Paul Weller

Tell us if our future's far
If our future's far
Tell us if our future's far
If our future's far
Tell us if our future's far
If our future's farTell us if our future's far
If our future's far
Tell us if our future's far
If our future's farOnly surface, just skin deep
When words fly like angels around your feet
Need the something, feel real inside
Cling together, as together we rideRound and round and up and down
Here we go in this moment in time
Round and round and up and down
Here we go again, yeahTell us if our future's far
If our future's farMovin' up to collect our prizes
Sinkin' fast into life's surprises
Win today but lose tomorrow
Lendin' what we just can't borrowRound and round
Up and down
Here we goRound and round and up and down
Here we go again, yeah
Tell us if our future's far
If our future's farTime around us, time to live
Gettin' back everything we give
Freedoms truth is the only truth
To save the day and pave the routeBe the first one on your block
To know the time and own a clock
Whose hands point upwards to the starsTo tell us if our future's far
Our future's far
Tell us if our future's farRound and round and up and down
Here we go in this moment in time
Round and round and up and down
Here we go againRound and round and up and down
Here we go in this moment in time
Round and round and up and down
Here we go again, ohhTell us if our future's far
If our future's far
