Broken Heart

Lil' Mo

Hmmm...
Can you fix this?
Hmmm...

[Verse 1:]
There's been a accident.
Please call 911.
I need a ambulance.
It's been a hit and run.
I can't think right.
I can't see straight.
Ain't got no appetite.
Been having chest pain.
May need some therapy.
Because of all the pain.
Some type of remedy.
I'll take three times a day.
May need some surgery.
Some type of intervention.
Are you a love doctor?
Are you a heart physician?

[Chorus:]
Can you fix this broken heart of mine? (Can you, this)
Can you take all the pieces, make it stop bleeding? (Can you)
So I can sleep at night?
Oh, can you fix this broken heart of mine? (Oh, can you fix this)
Can you take what is left of it? (Ohhh)
Give me some medicine.
Make everything all right.
Ohhhh...

[Verse 2:]
Can you prescribe a song?
Recommend a DVD.
Should I get a box of chocolates or vanilla ice cream?
Take away my symptoms of crying and my sleepless nights.
(Though sometimes I feel like dying)
Especially inside.

(Please)
Don't think I'm crazy.
(No)
Please don't think I'm tripping.
(No)
You are my last resort.
That's why I paid you a visit.
(I swear)
Mister fix it this my last question.
(If you are a love doctor)
Can I get some attention?

[Chorus:]
Can you fix this broken heart of mine? (Can you fix this broken heart of mine?)
Can you take all the pieces, make it stop bleeding?
So I can sleep at night? (Ohhh)
Oh, can you fix this broken heart of mine? (So can you fix this, ohhh)
Can you take what is left of it? (Take what's left of it)
Give me some medicine.
Make everything all right. (Ohhh)

[Bridge:]
Oh love, my heart says that you keep failing me. (My heart, hmmm...)
And my heart says I can't let love keep getting the best of me. (Can't let love, ohhhh)

Oh love, my heart says that you keep failing me. (Oh love, my heart, it says that you keep failing me)
And I'm desperate for medicine.
Can't let you get the best of me.
So...

[Chorus:]
Can you fix this broken heart of mine? (Can you fix this broken heart of mine, yeah)
Can you take all the pieces, make it stop bleeding? (Make it stop)
So I can sleep at night? (Whoa)
Oh, can you fix this broken heart of mine? (Can you fix this broken heart of mine)
Can you take what is left of it? (Take what is left of it)
Give me some medicine.
Make everything all right.

Is there anybody out there who knows what I'm going through?
(Can you fix it?)
Is there anybody out there, ohhh?
(Can you fix it?)
(Can, can, can you fix it)
Is there anybody out there?

(Can you fix it?)
(Can you fix it?)
Woah...
(Can, can, can you fix it?)
Can you fix this broken heart, broken heart?
I got this ice box where my heart used to be.
Woah, yeah yeah,
Oh... yeah yeah
Oh... yeah yeah
Woo...
