

Hatred Is Contagious

Filter

Haunted
by your voices
feel dead
and unconscious pain and hate become our process
it spreads as he watches
hatred is contagious
hatred is contagious it breaks me
it takes my pride
it makes me
but I am alive (but I am alive) crosses
are our losses
tombstones
make our fossil pain and hate become our bosses
it spreads as he watches
hatred is contagious
hatred is contagious it breaks me
it takes my pride
it makes me
but I am alive hatred
is contagious
hatred
is contagious it breaks me
it takes my pride
it breaks me
it's built on lies
it makes me
but I am alive but I am alive
