What You Do To Me

Straight Line Stitch

Please heal me, feel me, kill me, it's not easy
Never run from who you are, there's no one that can run that far
Better stick around and hold your ground
Under my bleeding heart
So hang on, won't be long
Is this what life is?
Something's gone wrongThese days I cannot cope at all
I need some kind of miracle
To shake me from this confusion
It's what you do to me
My heart lies bleeding in your hands
Time stops and turns around again
It doesn't matter what you say
It's what you do to meYou hurt me, desert me, divert me, it's not easy
Never knew that losing you could be so hard but now I'm scarred
And every time I dream I start to scream
Under the falling stars
So hang on, won't be long
Is this what life is?
Something's gone wrongThese days I cannot cope at all
I need some kind of miracle
To shake me from this confusion
It's what you do to me
My heart lies bleeding in your hands
Time stops and turns around again
It doesn't matter what you say
It's what you do to me, it's what you do to me
It's what you do to mePick up the pieces all around
Always wondered why we fight
Never even made a sound
Never thought I'd see the light
And I'm not falling
I'd rather stand aloneThese days I cannot cope at all
I need some kind of miracle
To shake me from this confusion
It's what you do to me
My heart lies bleeding in your hands
Time stops and turns around again
It doesn't matter what you say

It's what you do to me, it's what you do to me
It's what you do to me
It doesn't matter what you say
It's what you do to meThese days I cannot cope at all
I need some kind of miracle
To shake me from this confusion
It's what you do to me, it's what you do to me
It's what you do to me
