

Halloween II

Samhain

How do you like it so far? Giddyap I am your power and your pain
I'll make you gallop at my pace
Human pony girl I am the monkey on your back
And we're going for a ride home
Human pony girl Your nights are a season at my command
Human pony girl, heeyah
This is my highway, no limit enforced
There is no law, just Feel my spur sink in your flank
Feel it, feel it, pony
Stomach sweat in your spine
Belly up, shoulders down, pony Gonna take you someplace you ain't never been
That's right, only you ain't never comin' back I am the monkey on your back
I'm gonna ride you home
Little pony girl I am the monkey on your back
I'm gonna break you home
Little pony girl I am your power and your pain
I'm gonna make you race
Human pony girl, giddyap Gonna take you someplace you ain't never been
That's right, only you ain't never comin' back
Gonna take you someplace you ain't never been
That's right, only you ain't never comin' back, giddyap I am your power and your pain
I'll make you gallop at my pace
Human pony girl This is my highway, girl
There is no limit
Your nights are a season at my command
My little pony girl, feel it Stomach sweat in your spine
Belly up, shoulders down
Pony, human, human pony girl, human, you girl
