

Mortuary Love Affair

Pungent Stench

the smell of death seasons the air
tonight's the night to leave my darksome lair
the mortuary is my goal
I have this craving for some rotten holeexcitement grasps my sickened brain
and violent throbs my testicular vein
I might be one repulsive creep
doing what I do when everyone's asleepcaress the sallow skin
and taste the cavernous eyes with my tongue
I like it when they perished young
as an anal type of guy
I know those dead assholes tend to be dry
so I brought a tube of K-YI screw her all night long
impale her anus and cunt with my dong
and suck on her tits all along
right after I am done
I grab my carving knife for some more fun
for I am just my father's son
