

Electrobix

Scissor Sisters

Are you a Scissor sister?

Scissor sister

Scissor sister

Are you a Scissor sister? Scissor sister (x6)

Scissor sister can you work it on out? (x4) Electrobix, your moves they make me sick, Electrobix yeah

Electrobix, your moves they make me sick, Electrobix yeah

Your legs they look like sticks Electrobix yeah You gotta pump your body

Oooo you wanna be a hottie

You better like to party

You gotta pump that body (x2) When I was just a boy with my lunch in a bag

The other little boys made me feel like a fag

I didn't like sports didn't play outside

A lisp and a limp wrist too much to hide I always felt trapped inside

I always felt trapped inside You gonna feel high, high, high

But you gotta feel good, good, good (x2) I started working out at the YMCA

I couldn't lift the weights and I felt like a gay

Didn't take long just to understand

I was growing up big like a superman I swear I'm doing all I can

I swear I'm doing all I can You gonna feel high, high, high

But you gotta feel good, good, good (x2) Coz there aint no woman or man or tranny or thing

Whose gonna love you like they should You gotta pump your body

Oooo you wanna be a hottie

You better like to party

You gotta pump that body (x2) I go to the gym almost 5 times a week

I've gained lots of weight and I look like a freak

I get real bored when I sit at home

I just do what I wanna do and I stroke my bone You gotta pump your body (I've never felt so alone)

You gotta pump that body

You gotta pump that body (I've never felt so alone)

You gotta pump that body Electrobix, your moves they make me sick, Electrobix yeah

Your legs they look like sticks Electrobix yeah

Electrobix, your moves they make me sick, Electrobix yeah

Your legs they look like sticks Electrobix yeah
