Around the World

Lisa Germano

How can I say?
I lost my head
It was in the waste basket
When I found it I'd give anything
To change the words the words the words that come out of it
We all do it
We make mistakes and make some more and then some
But only as much as we feel
And the way the way is soon forgiveness
Eyes are open
Can I really believe what I see? ?
Love is everywhere and I could have it
Love is everywhere and I could have it
If I see it
What a waste
What a waste to feel the way I feel
While happiness is just around the corner
'cause happiness is just around the corner from forgiveness
Once around the world
Could I feel my way around the world
Twice around the world
Feel my way around
Okay okay
Nobody teaches how to laugh
Nobody teaches how to live
Nobody told me what to do
When life gets pretty ugly
What a waste
What a waste to feel the way I feel
While happiness is just around the corner
And love is everywhere if I could have it
If I see it
Once around the world
Twice around the world
I gotta feel my way around the world
Feel my way around
I gotta gotta feel
I gotta feel my way around
Gotta gotta feel

Gotta feel gotta feel gotta feel
Gotta gotta feel
Around my world
Around
