

Do What You Want

Bad Religion

Advisory - the following lyrics contain explicit language:

Hey, do what you want but don't do it around me
Idleness and dissipation breed apathy
I sit on my ass all goddamn day
A misanthropic anthropoid with nothing to say what you must, do all you can
Break all the fucking rules
And go to hell with Superman
And die like a champion, ya hey Hey, I don't know if the billions will survive
But I'll believe in God when one and one are five
When moniker is man and I'm rotten to the core
I'll tear down the building just to pass through the door So do what you must, do all you can
Break all the fucking rules
And go to hell with Superman
And die like a champion, ya hey
