Always

Peter Bradley Adams

You can break her down
With your highs and lows
But she's familiar with the sound
The sound you make, every time you goAlways
Always she waits for you
Always
Always she waits for youThis holiday she's alone
She leaves the lights on the tree
And though the New Year has come
Every night, they'll stay on for you to seeAlways
Always she waits for you
Always
Always she waits for you
AlwaysAlways
Always she waits for you
Always
Always she waits for you
AlwaysYou've been away too long
But she will choose to believe
And her heart is so strong
It's strong enough, if only it could seeAlways
Always she waits for you
Always
Always she waits for you
AlwaysAlways
Always she waits for you
Always
Always she waits for you
AlwaysEvery day she waits
And instead you walk away
