

Over My Head

Katthult

 baby, i'm tryin' to make some sense
 of all we should've learned from experience
 we win, we lose, we conquer and we fail
 one part serious, do or die
 another part crush in junior high
 i'm chasing my emotions like a tail
 i can still move my fingers
 but i can't seem to let go
 the cold winds are blowing, i should be goin'
 i'm in over my head
 without even blinkin' you've got me thinkin'
 i would be better off dead
 yeah, i'm in over my head
 you made me weak, i made you laugh
 driving through the rain in a yellow cab

 the taste of your kiss is with me even now
 but this thing we've got goes by different names
 never two days in a row the same
 i wanna stop feelin' this, but don't know how
 i see my legs and they're moving
 but i just can't walk away
 chorus
 i'll say goodbye, but talk is cheap
 i count the memories in my sleep
 i've had enough but i want more
 makin' me weak, makin' you laugh
 driving through the rain in that yellow cab
 baby, your kiss is with me even now
 chorus
