This Town

Jersey

Hollow, the devil's eyes
Besiege and clever lies, he'll pull you under
Won't let you up for air
Try to reason, there's no fucking answer
Try to leave he's like a fucking cancer
No conscience, he doesn't get it, doesn't get itHe's like a cancer, he won't let go
He'll hit the bottom and then come back for more
No surrender, repeat offender
He's got the courage, he's got the courageDon't come calling now
When your two stone throws away from your own grave
You're back to the wall, you're at the bottom of the well
Two bridges down, only one to burn
I'm singin' now, three bridges down nothing left to burnI've seen it, you said it, this town is burning down
I've seen it, you said it, this town is burning down
I've seen it, you said it, this town is burning down
I've seen it, you said it, this town is burning downHe's living underneath that black cloud downtown
If he comes around, it thunders and it pours
Renelly makes a dirty living from cheating, double cross and stealing
Heartless, no soul, he reeks of filth, so I'm toldHe's like a cancer, he won't let go
He'll hit the bottom and then come back for more
No surrender, repeat offender
He's got the courage, he's got the courageDon't come calling now
When your two stone throws away from your own grave
You're back to the wall, you're at the bottom of the well
Two bridges down, only one to burn
I'm singin' now, three bridges down nothing left to burnI've seen it, you said it, this town is burning down
I've seen it, you said it, this town is burning down
I've seen it, this town is burning down
I've seen it, this town is burning downI've seen it, you said it, this town is burning down
I've seen it, you said it, this town is burning down
I've seen it, you said it, this town is burning down
I've seen it, you said it, this town is burning downI've seen it, you said it, this town is burning down
I've seen it, you said it, this town is burning down
I've seen it, you said it, this town is burning down
I've seen it, you said it, this town is burning down
