

That's What Life Is

Taylor Made

Life is taking chances every chance you get
If you're afraid to play the game
Then brother you can't win
Livin' every day like it's your last
Livin' in the moment, not in the past
It's taken to the limit, give it all you got
Take the world as spinnin' and don't let it stop
Swing for the bleachers in the bottom of the 9th
Laying on the line, rolling the die
That's what life is
It ain't always fair and it's never easy
Life's a long hard road
You lose a few and when you do
You gotta, learn to let it go
Every cloud has a silver linin'
If you look hard enough
Live, laugh and love
That's what life is
It's facing what you fear until the fear is gone
Learnin' how to do it right from doing it wrong
Getting back up right after you fall
Leaving your mark, havin' a ball
It's a hard days work for a hard days pay
It's sayin' what you mean, and meanin' what you say
Doing what you gotta do to get it done
Smellin' the roses, layin' in the sun
That's what life is
It ain't always fair and it's never easy
Life's a long hard road
You lose a few and when you do
You gotta, learn to let it go
Every cloud has a silver linin'
If you look hard enough
Live, laugh and love
That's what life is
Live, laugh and love
That's what life is
Oh, that's what life is
That's what life is
Ooo, That's what life is
That's what life is
