

Kalamazoo

Ben Folds Five

Ran out of time, running my mouth
Ran up a tab and all the way from Kalamazoo
And on my way back home
I was surely stoned, now I'm sober in my yard
Can't believe I was there, can't believe I've been anywhere else
But there was a time, I almost forgot
We had been driftin' all the way from Kalamazoo
And I said that I loved you too, all the way back home
There's a old joke, I just made up
How many of me would it take to screw up your life?
One to settle down, one to turn you around
Now I'm sober in my yard
I was gonna say you had to be there
Now I forget that you're still there
Seems like you'd be frozen
Frozen there in time
Waving your goodbye
Up to the sky
