

# Delivered

Christopher Lewis

I never knew or got a chance to meet Brother David  
But I gotta feeling that we've got a couple things  
in common and I know  
What I mean to say is that  
we've seen our separate trials  
But at the end of them all we've seen total victory

I never knew or got a chance to meet Brother Moses  
But I got a feeling that we've got a couple things  
in common and I know  
What I mean to say is that  
we've seen the hands of bondage  
But at the end of the road  
we've see the promise land

Chorus:

Delivered from the silent frustrations of my mind  
When you broke through the shadows of the past I left behind  
When the enemy came running, ranting and roaring  
Lord You showed Yourself strong in the midst of it all

Bridge:

Lord I've seen so many battles  
in the warfare of the faith  
And sometimes I feel like I'm fighting on my own  
Although the devil soon reminds me of defeated times before  
One defeated battle does not mean I've lost the war
