

Fall Away

Stephen Malkmus & The Jicks

Fall away, fall away
Try to know you, try to show you
Where this scene will end
Look to me, don't look through me
Unseat the audience
I know there's action in subtraction
Take it off the year lead in on
Our separate songs
That no one else can hear
Fall away, fall away
Non-stop banter, heart supplanter
Can't afford yourself
Driving through some dream location
Will it ever gel, there's no alacrity
The pack will feed on what you pour
Skating on a thin ice pond
And I can't tell what for
