

I and Identify

P.O.D.

Love, suffer, patient, kind
And never bow jealousy
Earth, selfish, no angry
No memory won't separate my wicked ways Reach for the sky
Don't let it get away
I and identify
This is what love is Reach for the sky
Don't let it get away
I and identify
This is what love is Gentle, purified
Stay true, protection
Always trusting, continue hoping
Conquer, never fail Reach for the sky
Don't let it get away
I and identify
This is what love is Reach for the sky
Don't let it get away
I and identify
This is what love is
This is what love is This is what love is Reach for the sky
Don't let it get away
I and identify
This is what love is Reach for the sky
Don't let it get away
I and identify
This is what love is Reach for the sky
Don't let it get away
I and identify
This is what love is
This is what love is
