Lost I (feat. Saimiri)

Hinkstep

ItÂ´s always been magical to me,
the hundred ways you can count to thirty
0neâ€ comesâ€ up and twenty-nineâ€ agree
From left to right, itâ€ fills the void
Maintains the circular motion of everything
Maintains the circular motion of everything
In my mindâ•ŸIâ€™m a soundwaveâ•Ÿand Iâ€™m free,
traveling for Mars to Saturn,
no more bound to what I used to be,
nothing to explain to no one
We are already lost in space,
in artificial ecosystems,
the ray waves(/railways?) go back and forth,
tirelessly, endlessly
Sustaining a circular motion of everything
They sustain a circular motion of everything
