

# Lay It Down

Lonnie Mack

Travelling down two different roads  
Trying hard to leave the load  
Take it back, but we can't let go  
It's so hard to lay it down

Hide in me, confide in me  
Don't you think it's time to be  
All the things we tried to be  
You and me should lay it down

Speak to me be unashamed  
There's no need in playin' games  
After all, we're all the same  
Tryin' hard to lay it down

It's so hard to lay it down

Wish my words could make it well  
Wish that I could break this shell  
Take us from this self-made hell  
Find a way to lay it down

Burdened by the things I've learned  
Heard it cost, I'm too concerned  
Nonetheless I confess I yearned  
Find a way to lay it down

Lay it down, brother  
It's so hard to lay it down  
Lay it down, brother  
It's so hard to lay it down  
Lay it down, brother  
Lay it down, brother  
Find a way to lay it down  
Lay it down, brother  
Lay it down, brother  
You and me should lay it down
