Believe

Los Lonely Boys

Believe
Let's spread the love, let's make a difference people
They call me crazy, 'cause I believe in love
I hear them laughin', let them have their fun
I still believe in, oh I believe in love
I'll keep on walkin', you know I'm standin' tall
Don't be mistaken, love will conquer all
Oh I believe in, I still believe in, I still believe in love
I still believe that there's a Heaven above
Look in my heart and you will find
I'll never stop until the day that I die
I still believe in love
I feel it runnin', runnin' through my blood

So here's my message, don't give up on love
Oh I believe in, I still believe in, I still believe in love
I still believe that there's a Heaven above
Look in my heart and you will find
I'll never stop until the day that I die
I still believe in, I still believe in loooove... yeah
(14 measure Guitar solo)
I still believe in love, I still believe that there's a Heaven above
Look in my heart and you will find
I'll never stop until the day that I die
I still believe in love, I still believe that there's a Heaven above
Look in my heart and you will find
I'll never stop until the day that I die
I still believe in love, I still believe in love!
