

Savior

A Perfect Murder

You're not my savior
And you never will be
You're not my savior
And you never will be Blame me, because
I never worshiped your lies
Chanting your hymns to a ghost
It will never save you You're not my savior
And you never will be
You're not my savior
And you never will be Can you see that he's slowly
Pulling you in his wrath?
He's sucking the life from your heart
So you can't ever go back Haunted by your demons
You feel so alone
Haunted by your demons
You feel so alone Don't you feel alone?
