

There's Never A Forever Thing

[A-ha](#)

Dearest, close your eyes now
Don't you cry, it's alright
Lie back, leave the lights on
It's alright, dear
I'll be here through the night
With you till the first signs of light
Say the word and I'll come tonight
It's alright now
Don't you cry, hush
Wipe your tears away
There's never a forever thing
All through the night
I'll try so hard to be there somehow
With you till the first signs of light
Say the word and I'll come tonight
Darling, don't you cry
