

Ghost of Gloria Goodchild

Goodie Mob

This song is some of the spirit of the soul throwin' away sad but truth
And it works every time, but it's sad every time, but it's something I had to do
Glorious from a small town, well thinking out loud it's against the law
This you realize you for the whole lot better with the back against the wall

She said:

'that's fry out inside me, until this place deprive me
I want this, I need this, I wounded and I breathe this'
She was a real thing, a rebel soul, would it die to hear at night?
And she did, so I sing this to celebrate Gloria, started on the policy
Gloria, I'll make it you this' I will fight for Gloria
No, I will never, let you all like 'gonna live forever
Gloria, started on the policy
Gloria, I'll make it you this' I will fight for Gloria
No, I will never, let you all like 'gonna live forever
A conversation quickly turned into confrontation
No longer daddy's little girl that was conformation
Stubborn like the mother wars, her spirit was so free
See you take no fallin' answer, finally find that rebel unique
Her soul was me but she was a .. for hip-hop
Daddy call it double music and said it had to stop
Steady and shop he stole the keys and took the car left
I guess it was nice to know that I was lost for death. Gloria, started on the policy
Gloria, I'll make it you this' I will fight for Gloria
No, I will never, let you all like 'gonna live forever
Gloria, started on the policy
Gloria, I'll make it you this' I will fight for Gloria
No, I will never, let you all like 'gonna live forever
Runnin' runnin' take it away
Happen too fast to be afraid
Time time, ain't on my side
Heaven in here, he decide Put your lighters in the air and show em that you care
Hold your neighbors hands, close your eyes and say a prayer
I'm feelin' in the air, her prayer is a seven prayer
We celebrate the spirit I can hear the people chat. Gloria, started on the policy
Gloria, I'll make it you this' I will fight for Gloria
No, I will never, let you all like 'gonna live forever
Gloria, started on the policy
Gloria, I'll make it you this' I will fight for Gloria
No, I will never, let you all like 'gonna live forever
