

In My Arms

Dead by April

Don't look down, don't look back
I am beside you
Close your eyes, know I'm here
I know it's hard, to let go all that defines you
You feel like you'll never be whole again We will find a way, to erase the past
Stay with me, stay with me In my arms, you'll be fine
I never let go
All you've lost, will come again
Just stay here with me
Never look back, never again
It's over
Everything ends here in my arms Don't give in, don't let your memories break you
Let me take you away from here We will find a way, to make this last
Stay with me, stay with me In my arms, you'll be fine
I never let go
All you've lost, will come again
Just stay here with me
Never look back, never again
It's over
Everything ends here in my arms I'll be here forever (everything ends)
Here in my arms
I'll be here forever (everything ends in my arms)
I'll be here forever, forever (forever) In my arms, you'll be fine
I never let go
All you've lost, will come again
Just stay here with me
Never look back (never look back), never again (never again)
It's over
Everything ends here in my arms
