Sun Lips

Black Moth Super Rainbow

I'd love to be with you
And the sun will rise, the sun will rise.
I love to be with you
And the sun will rise, the sun will rise.
I'd love to be with you
And the sun will rise, the sun will rise.We wait in summertime
We miss you in summertime
We wait in summertime
We miss you in summertimeI'd love to be with you
And the sun will rise, the sun will rise.
I love to be with you
And the sun will rise, the sun will rise.
I'd love to be with you
And the sun will rise, the sun will rise.We wait in summertime
We miss you in summertime
We wait in summertime
We miss you in summertime
