

Love Revival

[Ty Herndon](#)

I need to be close to you
I long for you
And if we could just break through
We'd find that feeling Then I'd see the light
Come back in your eyes
Like a new believer just baptized We need a love revival
To shout and sing about romance
Slow dance, give us one more chance
We need a love revival In the deep and dark of our hearts
A white tin is glowing
Filled with memories and future dreams
Feel the light He's throwing Oh, and God is trying to show us
It's time for love to grow us We need a love revival
To shout and sing about romance
Slow dance, give us one more chance
We need a love revival We need to shout and sing
(Revival)
Just give me more chance to love you
How I love you Then I'd see the light
Come back to your eyes
Like a new believer just baptized We need a love revival
To shout and sing about romance
Slow dance, give us one more chance
We need a love revival We need to shout and sing
(Shout about it)
Just give me more chance to love you
How I love you, yeah
I want to love you, oh yeah
