Alone With 20 Bucks

Videodrone

Living, barely surviving
Freebasing life till it's end
Divided soulless vices
Death before life could beginEvil dollar bills, life stood still
A tumor removed from your brain
Prescription refilled, a cure for your ill
Bloodstains painted over againAnd you tell me how to think
And you tell me how to feel
`cause I want to know what is real
Is anything real?Listen, nothing's exciting
Deception from Satan's end
Enticing, ooooh, soulless vices
Suffocate before life could beginEvil dollar bills, life stood still
A tumor removed from your brain
Prescription refilled, a cure for your ill
Bloodstains painted over againAnd you tell me how to think
And you tell me how to feel
`cause I want to know what is real
Is anything real?I don't want to die all alone
