

Dissolve

Guster

Well it's true he was so young
But you are here
And the moment clouds your brain You could have even saved him
That means nothing
You could have even been there
It's a lie How can you blame him for your life
It's a mental suicide
And it carries you away Dissolve your fears into one
Try to figure out
Dissolve will find a way And it's true we aren't immune
But there's a way
And denial crowds your brain
To try and understand him
That means nothing
To you and find the meaning
It's a lie How can you blame him for your life
It's a mental suicide
And it carries you away Dissolve your fears into one
Try to figure out
Dissolve will find a way To right or wrong
To understand
To figure out
It's in his plans
To leave alone
To find a way
To figure out
It's not your fault And it's the both of you he's ruined
He's torn away
All the desire born inside You could have even saved him
That means nothing
You could have even been there
It's a lie To try and understand him
That means nothing
To try and find the meaning
It's a lie Dissolve your fears into one
Try to figure out
Dissolve will find a way To leave alone
To find a way
To figure out

It's not your fault
You see yourself
Mother would be proud of you
To leave alone
To find a way
To figure out
It's not your fault
You see yourself
Mother would be proud of you anymore
