

The Sweetest Thing

JJ Grey & Mofro

Down by the sea staring at the sunset
All those colors of light like a flame through the heart
But I never saw a sunset woman till I met you
The sweetest thing youre the sweetest thing
Down by the sea starring on the heavens
All those stars in the sky those beacons of light
But I never even noticed them until I met you
The sweetest thing youre the sweetest thing
Tell what is this lament? I cant tell you
Ive been a dead man running, all of my life
And I never felt a thing woman till I met you
The sweetest thing youre the sweetest thing
