

Melting

Kid Cudi

[Intro]

Why, why, why, why

Yeah, why, why

Yeah, why, why[Verse 1]

No doubt about it I'm melting, ooh melting
World full of wonder if you open those eyes

Say to yourself "get out the disguise"

Slow mo we all want acceptance

Truth, fuck that, get off that

Accept truth be free and carry on baby

Hey[Verse 2]

No doubt about it I'm crumbling, ooh crumbling

No issue I got it [?] through the ride

To enter the void got to lose more of your mind

It happens the same old downward spiral

And I wait to sleep, give it all a go in the morning

So good night my baby

Instant pain, hey
