

True Love

Fenster

I'm going to see my true love.
I'm going to watch you die.
I'm going to see my true love tonight. We met on the darkest night in december.
I was the secret he could not tell her.
The world is broken in two.
I can't go back.
I can't forgive. I'm going to see my true love.
I'm going to end the void.
I'm going to kill my true love - and I.
