

# Salvation

## Skillet

All alone, lost in this abyss  
Crawling in the dark  
Nothing to wet my longing lips  
And I wonder where you are  
Are you far, will you come to my rescue  
Am I left to die but I can't give up on you I feel you keeping me alive  
You are my salvation  
Touch you, taste you, feel you here  
I feel you keeping me alive  
You are my salvation  
Hold me, heal me, keep me near  
My heart will burn for you  
It's all I can do Salvation  
Salvation (keeping me alive)  
Salvation (you're keeping me)  
Salvation (you're keeping me alive) Been out from under who I am  
And who I want to be  
Held you tightly in my hands  
Why are we unraveling  
Was it me, will you come to my rescue  
Or did I push to far when I turned my back on you I feel you keeping me alive  
You are my salvation  
Touch you, taste you, feel you here  
I feel you keeping me alive  
You are my salvation  
Hold me, heal me, keep me near  
My heart will burn for you  
It's all I can do Salvation  
Salvation (keeping me alive)  
Salvation Touch you, taste you, feel you, need you  
Give it all just to find you  
Hold me, heal me  
I will find you Keeping me alive  
You are my salvation  
Touch you, taste you, feel you here  
Our love will never die  
You are my salvation  
Hold me, heal me, keep me near  
My heart will burn for you

It's all I can do Salvation  
Salvation  
Touch you, taste you, need you  
Salvation
