

The Endless Night

Return to Forever

The aching heart, there's no delight
Dreams die in endless night
The lonely soul has yet to see
One love being warm and freeParadise is gone
Yet, it can come back
Back again, returning to forever
Forever, foreverMysteries of yesterday
Sometimes, will fade away
But doubts and questions still remain
Confusing all in painReaching out to be, unafraid to see
What is there? Returning to forever
Forever, forever
