## Night Life

## **Scissor Sisters**

I was a young girl Knew next to nothing Living in the suburbs And my heart was lustingFor a new way And a new sound Crawled over my hang-ups In the undergroundI had a break through I had to shake you You could've come too To see my point of viewWe got a breakthrough It was my debut It didn't faze you But it meant something to meNight life, beneath the surface Night life, some say it's worthless High life, instead of being Inside, it's a song you're singingNight life, if there's no spirit Night life, then don't go near it Night life, to have it over Inside, you can find your life in the night lifeIf you are feeling Like you don't have nothing Under pressure in the cooker With your head in the ovenThere's a new way So come on down Life ain't never really over When you're undergroundYou need a breakthrough You need to make do You need to come to A brand new point of viewYou need to break through And then get wise too Our love is taboo And you'll be something to seeNight life, beneath the surface Night life, some say it's worthless High life, instead of being Inside, it's a song you're singingNight life, it's a heart you're racing Night life, it's a billion daisies Night life, it's the cash your making Inside, you can find your life in the night lifeIt's beneath the surface Some say it's worthless It's a low gut feeling

It's the rush you're feelingYou can beg your spirit If you let that leave it It's the back you're breaking Are you ready for the night lifeNight life, night life Night life, love life, insideFind your way to hide in the night life (Night life, night life, night life) You can find a life in the night life (Night life, love life, inside)Find your way to hide in the night life You can find a life in the night life
