Hope & Glory

Lou Rhodes

Show me how to fall without breaking every bone in my body
Show me how to love without giving every piece of my heartAnd I'll tell you a story of a man who went to sea
Trailing hope and glory to bring it home to meShow me how to fly with the flur of the butterfly's wing
Show me how to die when there's life in every note that I singAnd I'll tell you a story of a man who went to sea
Trailing hope and glory to bring it home to meAnd he sailed away
A year and a dayHeaven is a place that we think is way above us than our sky
But I found it in the face of a man that brought that sunlight in his eyesAnd I'll tell you a story of a man who went to sea
Trailing hope and glory to bring it home to me
