What You Want

My Bloody Valentine

What I do I say but I can't get far away
Oh, I go back to a memory again
What you want but you know that I'm alive
Then I'll go back to you don't you know feel inside
When you come down blue
But I do, I do, I do oh, I come back to
The one who calls my name out
What you want don't you know that I can smile
Then I go back to you and then you make him go inside
[Inaudiable]
Turn around and smile
No they can't see through your eye
Could I fall into come back down my mind
Then it surrounds you don't you know that I have [Incomprehensible] 2.40
When you come down blue
But I do, I do, I do oh, I come back to
The one who calls my name out
What you want let me know that I'm alive
Then I go back to you and then you make him go inside
