

Jubilation (This Thing Called Life)

The Echoing Green

Every time I close my eyes
I hide behind the blackened lies
That follow me throughout my historyThe lives I've touched, the things I've done
The things I know will never come
Get washed away in my happinessAnd oh...
When you feel stranded
Don't take for granted
This thing called lifeAnd oh...
When you feel stranded
Don't take for granted
This thing called lifeMoving on was hard to do
To leave the things that I once knew
And childhood is the one thing that will come back to meHow can I sit idly by
Watching all these hours denied
My name is all I have for an offeringAnd oh...
When you feel stranded
Don't take for granted
This thing called lifeAnd oh...
When you feel stranded
Don't take for granted
This thing called lifeDon't take it don't feel it don't take it don't
Don't feel it don't take it don't feel it don't
Don't take it don't feel it don't take it don't
Don't feel it don't take it don't feel it don'tOh...
Don't take for granted
