

Isolation

Armored Saint

In time we fly, in time we die, oh, oh, oh
Know what it feels to be lonely
Don't know how it feels to be free
Reacting wild, some moody child
Don't know what's in store for me Oh, out in the cold, isolation
Out on my own, isolation
Out all alone Up go the golden mast
Float out to sea at last
Roamed a thousand miles
Still lonesome child
But my ship is coming in Oh, out in the cold, isolation
Out on my own, isolation
Out all alone It's my test
No fight with myself
I ain't wrong
It's my quest
A life with myself
I am gone Oh, yeah, isolation
Oh, yeah, isolation
Out in the cold, isolation
Out on my own, isolation
Out in the cold, isolation
Out on my own Isolation, out in the cold
Isolation, out on my own Isolation, out in the cold
Isolation, out on my own Isolation, out in the cold
Isolation, out on my own
