Hey Mister

Poor Man's Poison

[verse 1]
My head's hanging low and my shoes are worn

I've had the blues in my soul since the day I was born

The devils been on my back now for quite some time

yeah it's just been me and him and the whispering wind and its, it's time to find a little piece of mind

[chorus]
I said hey mister if you're going my way, I could sure use a ride outta this place

Hey mister hey, it's comin' around and I could sure use a ride outta this town

cause it's a long way down to the bottom, it's-a, a long way to get back on top

I said hey mister hey, if you're going my way, I could sure use a ride outta this place

[verse 2]
I been looking for a sign, looking for a friend

been looking at the same dead eyes in the mirror, watching myself go down a dead end

I've been waiting on a prayer that never made it to god

it's like going through hell on a sunday

but then going through hells about all I got

[chorus]
I said hey mister hey, if you're going my way, I could sure use a ride outta this place

Hey mister hey, it's comin' around and I could sure use a ride outta this town

cause it's a long way down to the bottom, it's-a, a long way to get back on top

I said hey mister hey, if you're going my way, I could sure use a ride outta this place
