# Native Resistance

## Clandestine Blaze

they come to our land
they told what to do
with power of sword
they brought us their lordnative resistance!they destroyed the cultures
they destroyed the true knowledge
in the name of god
they turned history to the lie
people betrayed their roots
submitted to alienating religion
like poor sheeps
like christians of todaynative resistance!gather the forces and prepare for revenge
we have been pushed down too long time
hate against forced relegion
our war will continue till endnative resistance!we'll destroy their landmarks
we'll pay back their crimes
power and might of church and organized religion
shall be purged away
