

He Likes the Sun

Tanita Tikaram

Some say the world goes crazy
It's summertime
I say I'm feeling lazy, hammocks in mind
And I can't change a thing
So I won't stay around If you can feel so hot
Why don't you feel for me?
If you can feel so much
Why don't you let it out
And let me be
Alone again? I keep watch, that's alright
'Cause it comes in this real night He likes the sun
See the cornered clown
He likes the sun
Let us waste this town
And when it rains
You feel the click in his heart
And that's when the pain in mine will start
And that's when the pain in mine will start I'm used to growing older
And feeling down inside
But yes, I know, well someone told
You should have seen him cry
Well that's not my life I'm tired of chip inside
And playing bronze for cool
You know that sometimes light
And sometimes you can just be that fool
Who can really say? If I'm cross, it's a joke
If I'm lost, let it go up in smoke, yes He likes the sun
See the cornered clown
He likes the sun
Let us waste this town
And when it rains
You feel the click in his heart
And that's when the pain in mine will start
And that's when the pain in mine will start Jump right out o' your grass colors
And make like you were easy prey
And cheer us solemn of a possible
Is it possible?
I could really play
I could really play

All these things I say
Though not torn inside
Though not torn inside
You just lie, lie low
Lie low for me I'm not in deeper waters
Where everyone will claim
We used to know the daughter
Throw it away it's not such a shame
If you're feeling blue I like icy looks
Great command
He likes the way I'm true
But I know inside
This is a real life sham
That's okay And this song can't be sued
I assume, you get up and renew yourself He likes the sun
See the cornered clown
He likes the sun
Let us waste this town
And when it rains
You feel the click in his heart
And that's when the pain in mine will start
And that's when the pain in mine will start
