

# I Left You

Sophia

Oh I left you  
but you never really felt that far away  
oh I left you  
because it seemed to hurt us less than if I stayed  
and yeah I left you  
but you never really felt that far away  
and yeah I left you  
because it seemed to hurt us less than if I stayed and if I will you closer  
can you feel the presence of my thoughts  
and you don't say much now  
but what you say just tears  
yeah tears my world apart  
and are you waiting  
are you waiting for the end before it begins  
and are you waiting  
are you waiting for the end oh I left you  
but you never really felt that far away  
and yeah I left you  
because it seemed to hurt us less than if I'd stayed  
and yeah I left you  
but how long will it take for you to forget this hate  
and yeah I left you  
but is "I'm sorry" too simple a thing to say now
