

Before You Leave

Racoon

Before you leave me now
tell me where the hell I am
Before youre taking down
wont you tell me once againbefore you get the change
dont take away my memories
before you leave me now..before you leave me now
tell me where Im gonna go
If I start walking now
And the sooner I will know
before I get the change
to take it out on new again
before you leave me now..cause your lifes been a ? on ice
now youre leaving,
just before you say goodbye believe me,
believe when I say that Ill miss you
please believe when I, yeah when I say
that Ill miss younanananana Ill miss you nananananebefore you leave me now
tell me you will be alright
that theres not much to say
no you know its this time
before I lose my ?
to say goodbye to you again
before you leave me now..I wont ask you to stay anymore
and now your leaving,
but just before you shut the door
wont you believe me,
believe when I say that Ill miss you
please believe when I ,
yeah when I say that Ill miss you
when I say that Ill miss you,
I say that Ill miss you
