

Bring the Noize

DMX

I smell pussy
I smell pussy
I smell pussy
Smell pussy I'm a take it back to the shit talkin', slick talkin'
Slap a nigga and call him my bitch and keep walkin'
Half y'all niggas is pussy
The other half of y'all niggas is fake thugs so please don't push me
If we was in jail you'll be in the pool playin' in the air pressure
Leave you up on the stretcher nigga I'm gonna test you try your hand
When they carry you out I'm a tie your man But these cats ain't built like your killed like
Blood gets spilled like poke a nigga tonight
Bang bang, what! Ah! It hurts
The fuck you screamin' on me for I'm puttin' in work
We leave more bodies then the bloods and crips
This is how it's goin' down nigga thuggin' a bitch
Fuck a nigga with we on the same bullshit y'all niggas on lets get it on You know how we roll nigga bring the
noise
Y'all don't wanna fuck with them boys
Come on dog put away them toys
'Cause I'm a put in a clip and you'll get yours You know how we roll nigga bring the noise
Y'all don't wanna fuck with them boys
Come on dog put away them toys
'Cause I'm a put in a clip and you'll get yours No matter how many cats he brought with him, I'm a split him
Hair raised on my back get low and hit him
Stopped him dead in his tracks
Known damn well you ain't mean what you said in the past
Dogs don't know nothin' but bust that nigga
Dogs don't know nothin' but fuck that nigga
Dogs don't know nothin' but suck my dick
When it comes to what happened dogs don't know shit Did two years in one night, I popped two pills in one
flight
Two ears in one light, aight, aight
That's what it is follow
Too many thick live niggas wanna swallow
Follow my mans and them
And get popped with yo mans and them is what I'm handin' them
It's hot things, drop things, stop things, drop things
Lookin' like a nigga like hot wings You know how we roll nigga bring the noise
Y'all don't wanna fuck with them boys

Come on dog put away them toys
'Cause I'm a put in a clip and you'll get yours
Been around the block did my dirt
Earl Stiral put in work till it hurt
I've seen less pussy in a stripclub fuckin' with y'all niggas
That means all y'all niggas
Most y'all know what ruthless means
Will you be able to survive the truth I've seen?
Cats wouldn't be alive if you was on my team
But the truth is the ride is rough you mean
Got me like God what the fuck
Dog gone bang somebody's getting' stuck
Back up the truck jump right the fuck out on niggas
Empty the five out on niggas
Hush mtherfuckers don't you cry
Dog gone make sure that you die
Point blank range so the slug go through
Then I'm a hit your crib and pop your family to nigga
You know how we roll nigga bring the noise
Y'all don't wanna fuck with them boys
Come on dog put away them toys
'Cause I'm a put in a clip and you'll get yours
You know how we roll nigga bring the noise
Y'all don't wanna fuck with them boys
Come on dog put away them toys
'Cause I'm a put in a clip and you'll get yours
