

# Japanese Fantasy

## Vast

A Rocketship took me so far away,  
from the field where I had lost my way  
A million people with a million souls,  
on a Rocketship that lost control  
All I ever wanted was to feel like I have done something with my life....

All I ever felt was YOU  
A Rocketship took me so far away,  
from the field where I had lost my way  
A million people with a million souls,  
on a Rocketship that lost control

All I ever wanted was to feel like I have done something with my life....

All I ever felt was YOU  
A Rocketship took me so far away,  
from the field where I had lost my way

All I felt was YOU  
All I ever wanted was to feel like I have done something with my life....  
All I felt was YOU
